

**MAX-STYLE**  
LOUVRES

## Create visual impact with **max**-style louvres

### Clean and streamlined

Metalform Structures are manufacturers of the all new Max-Style™ louvre. The Max-Style™ louvres are custom made, roll formed louvres available in varying styles and a large range of colours for architectural features designed to make a bold statement. Most recently, Zed shaped profiles were adopted on several large car parks acting as an attractive facade to the dull and cold concrete walls and floors. Examples include the Crown Metropol and Monash Medical Centre projects.

### Low cost, High impact

Shapes and sizes are many and varied to suit the building aesthetics, shading and barrier requirements. Importantly, colour and appearance is showcased by a wide range of hues and finishes to suit the vision of specifiers, architects and interior designers alike.

### Colour freedom

Traditional moods include the 'Contemporary Metro' Collection including silvers and charcoals, the 'Raw Harmony' Range featuring browns and more natural colours and the 'Colour Vitality' Selection featuring bright and energetic experiences.

Metalform Structures are proud to be associated with AkzoNobel Interpon Powder Coatings, the world's largest manufacturer and supplier of High Performance powder coat finishes.

Utilising Interpon's Metaplex Commercial coating system and commercial 15 year coating performance warranty, Metalform Structures can provide you with a totally customised coating solution for applications in class 2 – 9 of the BCA, which will perform to the requirements of AAMA2604-05 for premium coating durability.

Utilising Interpon's Architectural range of D2015 top coat finishes using the 'Contemporary Metro' or 'Colour Vitality' ranges for example, can further enhance the aesthetic impact of the Max-Style™ Louvre system.

#### Interpon MiniB

Understanding there are some instances where unique colours and finishes are needed to satisfy specific design criteria. Interpon introduced **Interpon MiniB™** and **Interpon MiniB™ Micro** which are unique, small batch, rapid delivery services exclusive to Interpon Powder Coatings.

These services provide custom made products to an order size as small as 20kgs, in almost any colour and finish, with a selection of technologies providing maximum design freedom.

## Colour Vitality

### Custom Made Colours

**Bondi Blue**  
Gloss YJ046A

**Enzian Blue**  
Gloss YJ028A

Colours displayed on this colour card are a guide only and have been matched as closely as possible to Interpon production standards under daylight conditions. Due to the nature of the printing process, some degree of colour and gloss level variation will occur. We recommend that you use production line prepared samples for final colour selection or approval.

## Sustainability

Having long recognised the importance of sustainability, EVERY COLOUR IS GREEN in the Interpon Ultriva range. The entire range of Interpon D architectural powder coatings produce minimal product waste, low emissions and contain no volatile organic compounds (VOC's) or toxic heavy metals.

Solvent free and recyclable, the Interpon powder coatings offer an environmentally sustainable and cost effective option to alternatives such as liquid paints. In addition, all Interpon products are **SMaRT** certified. Interpon's commitment to sustainable manufacturing procedures from the raw materials to the finished product

has been recognised by being awarded the Sustainable Materials Rating Technology (**SMaRT**) certification. This is a global certification that evaluates sustainability performance over a product's life cycle and supply chain and Interpon is the first powder coating company to receive this certification.

As a manufacture Interpon is constantly sourcing more sustainable and renewable raw materials and energy resources from their suppliers. What's more, they are focusing significant R&D efforts on reducing future energy requirements at every stage of the process.

## Max-Style™ Louvres Metaplex Commercial Warranty

Interpon D2015 Architectural powder coatings are performance guaranteed with Metaplex Commercial Warranty when applied in accordance with Interpon Metaplex Commercial application criteria to Metalform Structures' Max-Style™ Louvres.

The Interpon Metaplex Commercial Warranty features guaranteed colour retention and film performance for 15 years ensuring your project maintains its aesthetic and functional value.

For further information regarding Interpon Metaplex Commercial or the range of Interpon finishes please contact the Interpon Customer Care Team on: Toll Free 1800 630 516
